New Business: Chairman Corr held a discussion on the current Title 5 Regulation allowing a 40% reduction on systems that use chambers. Chairman Corr feels uncomfortable approving leaching systems for restaurants, supermarkets and other food processing facilities at a 40 % reduction.

Open session for issues not anticipated:

There have been a lot of complaints regarding the planet aid located at the intersection at the West Main and Oak St, people dumping mattresses, furniture, etc. There was an article in The Sun Chronicle regarding the complaints received about using the area as dumping grounds. The health agent has visited the location and spoke to owner of property, and it was cleaned up. Less than a week later it was a mess again. Owner does not care if boxes are removed, Planet Aid wants to keep them there, and keep area clean. The regional manager from planet aid is coming to Norton to talk to health agent.

We received a copy of the Attorney General's office notification rejecting the rules and regulations submitted by Norton Mobile Estates. Mr. Sullivan now has till November 1, 2016 to reply to their findings.

Septic Plan Review: No plans to be reviewed this month.
