Members reviewed a request for a Certificate of Compliance filed by Douglas King for lot 10A, Smith Circle, Easton. Julian Kadish made a motion, seconded by Ed Breault, to issue the Certificate. Approved.

Julian Kadish discussed his recent site visit to Connecticut with the Director and Leonard Silvia on Friday, October 20, 1995 to visit a Hydro dredging operation. Mr. Kadish stated that it would not be feasible to use this method of dredging on Norton Reservoir due to a lack of separation areas. Dredging the main body of the reservoir using conventional dry bottom methods would be cost effective. The Commission requested that a letter expanding on this be submitted to the Selectmen.

The meeting was adjourned at 9:00 pm

Respectfully Submitted, for the Commission by,
