

Call to order

Chairman Corr called the September 12, 2012 Board of Health meeting to order at 6:30 PM.

246 East Main Street

Mr. Hebard President of ECO Services, Inc. stated that three samples for the FAST system at 246 East Main Street had all been collected on Thursdays at 9:30 AM during peak water usage. He further explained that the pump chamber had been cleaned prior to the testing. The average flow was 1618 gallons per day with an average of 64 mg/L for TKN, average for Ammonia Nitrogen was 59 mg/L, average of Soluble BOD was 380 mg/L. The FAST system effluent quality on July 19, 2012 was C-BOD 25.9 mg/L; TKN 71.2 mg/L, NH₃ 55.7 mg/L, Nitrate/Nitrite 0.48 mg/L, TSS 13 mg/L and Turbidity 50. The effluent on July 26, 2012 was C-BOD 37.2 mg/L; TKN 62.7 mg/L, NH₃ was 47.1 mg/L, Nitrate/Nitrite 0.49 mg/L, TSS 23 mg/L and Turbidity was 45. On August 2, 2012 C-BOD was 10.7 mg/L; TkN 57.4 mg/L, NH₃ 42.7 mg/L, Nitrate/Nitrite 0.47 mg/L, TSS 17 mg/L and Turbidity 35. The Dissolved Oxygen (DO) on July 19, 2012 was 2.1 mg/L and the pH was 7.4. On July 26, 2012 the DO was 2.0 mg/L and the pH was 7.2. On August 8, 2012 the DO was 2.2 mg/L and the pH was 7.3. The Flow based on water meter readings for July 19, 2012 was 129 cf or 965 gallons, July 26, 2012 was 113 cf or 845 gallons and August 2, 2012 was 120 cf or 897 gallons.

Chairman Corr stated the numbers appear to be better however the system is not nitrifying. Mr. Corr discussed several options to obtain nitrification including installing a pump in the septic tank to increase the detention time in the FAST system. The septic tank would be used as a holding tank and the wastewater pumped to the FAST unit over 24 hours. Currently water use is greatest over a two or three hour period in the morning with greatly reduced flows over the remainder of the day. The pump would reduce peak flows to the FAST unit. Mr. Corr further recommended that Mr. Hebard evaluate the cleaning agents used at the Dunkin Donuts, he should check on MSDS sheets. Certain compounds with nitrogen do not break down easily.

Mr. Rich III stated that the complaints regarding the smell have decreased since he had charcoal filters installed in the vents.

No action was taken at this time. The Board requested that more testing be completed and that Mr. Rich and Mr. Hebard at the next scheduled Board of Health to be held on November 5, 2012 at 6:30 PM.

Attleboro Landfill Closure

Health Agent Dumont stated that he has drafted a letter addressed to the MA Department of Environmental Protection addressing some of the public health concerns of the Norton Board of Health, regarding the proposed installation of additional material prior to the final capping of Phase B by the Attleboro Landfill Inc. and is requesting the Board's opinion.

ALI is proposing 35-70 trucks traveling through Norton per day, six days a week from 7:00 AM through 4:30 PM Monday through Saturday. They will be using the landfill as a dump for four years with a portion of the material is categorized as slightly contaminated. The Board reviewed the draft letter making some changes by Chairman Corr. Health Agent Dumont was granted permission to sign the letter for the Board.

Vice-Chairman Medeiros made the motion to send the proposed letter out once the changes were made by Chairman Corr. Clerk Battistello seconded this motion. This motion passed 3-0 M. S. D. V.

Board member communication with the public

Health Agent Dumont stated that he has received copies of emails from Heather Graff, and in these emails it appeared that one was signed by a member of the Board indicating that the Board had made a decision on the project. The ALI project was discussed at a prior Board of Health meeting, however the Board did not vote on any decisions pro or con.

Chairman Corr stated that no member of the Board should give an impression that an item or article had been voted on, when things were just discussed. Members of the Board can address, talk and give their opinion; however it should be made very clear that it is their own opinion not the opinion of the Board.

Rules & Regulations

Ms. Peters stated that she has printed several chapters 2 through 4 for the Board members to review prior to the next meeting when changes can be made and they can be signed and approved.

Chairman Corr stated that he would like to see the revised fee schedule for the next meeting, to include the changes previously discussed revision.

Minutes

August 6, 2012

Vice-Chairman Medeiros made the motion to accept the August 6, 2012 minutes as written. Clerk Battistello seconded this motion. This motion passed 3-0 M.S.D.V.
