MINUTES
TOWN OF NORTON

Board/Committee: Water Bodies

Meeting Date: April 22, 2019

Members & Staff Present: David Lennon, Brian Brady, Janet O'Reilly, Herb Ellison, Carol Zwicker, Catherine Carr, Patrick Carr,

Members Not Present: Jim Smith, Member from Conservation,

The meeting was called to order at 7:12pm and adjourned at 7:40 pm.

Minutes from the February 25, 2019 Meeting were reviewed & Approved as written.

Meeting Motions

/ Actions and Summary of Discussions:

Brian Brady motioned to accept minutes
Patrick Carr, second the motion

CALL TO ORDER
Acceptance of Minutes of February 25, 2019

Brian Brady motioned to accept minutes
Patrick Carr, second the motion

OLD BUSINESS.
Dave sent email to Matt. ESS replied April 12, 2019 with Task Order on pdf file. It contained revised budget information and addressed tasks associated with the cost and permit compliance and support.
OPEN SESSION
Mike Masone contacted Dave about joining the Water Bodies Committee, Dave referred him to the Conservation Commission.

WBC has to talk to Jennifer to see if there is any information regarding Run-Off available. Find out what information we have.

Dave suggested the committee attend the Selectmen’s Meeting to inquire about the signage not getting done.
Suggestion made that WBC try to get information on depth needed for ramp use.
Brian Brady suggested we get in touch with Office of Fishing and Boating and find out if they will promote use of getting vessel ID’s.

New Business
Dave asked Committee to bring back ideas for projects.
Next Meeting May 20, 2019

Adjourn
Herb Ellison motioned to adjourn
Patrick Carr second the motion
Meeting adjourned at 7:40 pm

### Additional Task Order Description:

ESS will assist the Town of Norton with the Ordnances Conditions issued by the Norton Conservation Commission and Mansfield Conservation Commission for the management of Charley Pond, Barronsville Pond, Norton Reservoir, and Lake Winnecunnet. Costs associated with the proposed work have been included in ESS's cost estimate for this change order. Under this change order, ESS will provide support in addressing the special conditions assigned to the "Contractor," "CLM," or "ESS Group, Inc." including the following services over the course of Fiscal Year 2018:

- Update of vegetation and "Safe Zone" mapping at all four ponds for use in assessing post-treatment conditions. This includes up to three days of field work, development of GIS maps, and submittal of maps to the Conservation Commission. ESS will also share GIS data with the Town's aquatic weed control contractor. ESS assumes the Conservation Commission will allow "Safe Zone" mapping in 2019 to be valid for planned treatments in 2020.

- Review and comment on applicant's 2019 treatment reports on behalf of the Town.

- Submittal of annual CLM report (also called "as-built plans") in OOC, documenting pre- and post-treatment conditions, the management program undertaken, areas treated and herbicide used, and recommendations for future management. Mapping will focus on the plant species targeted for control.

- One draft and one revised final report are included. ESS will also forward one electronic copy of the final report to the Mansfield Conservation Commission.

- Attendance at year-end meeting with the Norton Conservation Commission to present results of 2019 management program and describe proposed program for 2020.

- Submittal of annual report to the Massachusetts Natural Heritage and Endangered Species Program (NHESP). Report will detail results of 2019 management program at Lake Winnecunnet, as applicable, and make recommendations for 2019 for review by NHESP. Submittal will include one draft for review by the Town and one revision for submittal to NHESP. It is anticipated that this report will need to include elements from both the applicator (Solitude Lake Management) and ESS. ESS will coordinate with Solitude Lake Management to complete this report.

### On-Call Services:

ESS will provide additional consulting services for the Town, including but not necessarily limited to review of proposals or plans from herbicide applicators, attendance at additional meetings, vegetation mapping, hand pulling of water chestnut, and water quality (non-herbicide) sampling to support treatments on an on-call, as-needed basis. ESS will provide the Town with individual estimates of cost for these activities prior to proceeding. On-call services will be undertaken following approval from the Town.

### Assumptions:

- Survey with sub-meter GPS unit will be sufficient to update "Safe Zones" maps. Aquatic plant maps will be developed using a combination of GPS and field sketches.

- A detailed plan on the execution of the treatment project at each pond, including herbicides proposed, concentrations, locations for water quality testing, and an herbicide-specific monitoring plan will be the responsibility of the applicator under a separate contract.

- All treatment notifications, including signage, press releases, letters, newspaper ads, etc. will be the responsibility of the applicator under a separate contract.

- Herbicide water quality sampling is not included, as it is assumed this will be the responsibility of the applicator under a separate contract. However, ESS will review herbicide monitoring results provided by the applicator on behalf of the Town.

- ESS assumes all approvals for Norton Reservoir received from the Norton Conservation Commission will be accepted by the Mansfield Conservation Commission and will not require separate meetings or reports for Mansfield.
## CONTRACT TASK ORDER

**Project Name:** Norton Lake/Pond Management Action Plan - Study and Permitting  
**Project No.:** N490-000  
**To:** Michael D. Yunits, Town Manager  
Town of Norton  
70 East Main Street  
0  
Norton, MA 02766

**Date:** April 12, 2018  
**Task Order No.:** 5  
**Cost Estimate:**

- Previously Authorized Budget: $142,980  
- Task Order Amount: $24,250  
- Revised Budget: $167,230

**Scope of Work:**  
- Please reference ATTACHMENT "A" for additional detail (if checked).
